

# Agenda

## Certified Financial Supervisor (CFS) Core Curriculum Program

October 16 & October 21 – November 1, 2024

Toronto

# Core Curriculum Program Agenda

**Course Objectives:** The Toronto Centre Core Curriculum Program is designed to help prepare future leaders of financial sector supervisory agencies. As financial systems become increasingly integrated, as innovation and competition spread within and between different industry sectors, and as new players enter the market and disrupt traditional business models, successful supervisory agency managers need to have a broad-based understanding of the objectives, principles and best practices for regulating and supervising the banking, insurance, securities, and pensions industries.

The Core Curriculum Program offers a comprehensive foundation in this essential knowledge. Designed and delivered by former senior supervisors of the different financial sectors, the course builds graduates' capacity to provide effective leadership in their agencies and to advocate for sound regulation and supervision with political and industry leaders and other stakeholders. The course utilizes Toronto Centre's proven interactive approach to learning by extensive use of group activities and case studies.

The Core Curriculum Program is one of the core modules for participants pursuing Toronto Centre's Certified Financial Supervisor (CFS) certification. It is also open to participants who are not pursuing the CFS certification. An examination will be administered during the program for all participants.

**Who Should Attend:** The program is designed for mid- to senior-level staff and managers involved in regulatory and supervisory activities. Participants should have at least three years of working experience in financial sector supervision, analysis, or policy, and be proficient in English.

**Method of Delivery:** The course will be delivered in-person in Toronto, Canada. A virtual orientation session on program overview and the Toronto Centre Program Platform (TCPP) system will be held on Wednesday, October 16<sup>h</sup>.

**Required Pre-Reading:** Pre-reading will be required. Materials will be sent out to registered participants at least two weeks before the program starts.

*ALL PROGRAM TIMES BELOW ARE REFERENCED TO TORONTO TIME, EASTERN DAYLIGHT TIME (EDT)*
