

# Toronto Centre Summer 2012 Newsletter

The Toronto Centre is pleased to present you with our [2011 Annual Report, \*Increasing our Impact: Strengthening financial supervision around the globe\*](#), which outlines our work and accomplishments from last year. We are proud to have trained more than 820 mid-to-senior level supervisors from around the world - that's more people trained than in any other year in the Toronto Centre's history. We completed 37 training programs and projects, primarily in low income and emerging markets. And we expanded our program roster, adding training for pensions and microfinance supervisors, and introducing new courses on risk based supervision, consolidated supervision, and macroprudential supervision. A list of our current program topics can be found on pages 16 and 17 of the Annual Report.

TC President & CEO

As you can see, we have been responding to the needs of our client countries and partners by offering a broader scope of relevant, practical training. We will continue to do so in the months to come, and are excited to

be introducing a new program for microinsurance supervisors.

On a sad note, it is with deep regret that we inform you of the passing of Robert (Bob) Glading on May 18th, 2012. Bob was a former Program Leader at the Toronto Centre, who many of our Associates will remember fondly. He was a senior insurance supervisor with a wealth of experience and was awarded the Order of Australia for his "service to the insurance industry and the actuarial profession". The Toronto Centre extends its deepest sympathies to his friends and family.

A handwritten signature in black ink, appearing to read 'B. Abbaszadeh', written in a cursive style.
