ABOUT TORONTO CENTRE

Toronto Centre for Global Leadership in Financial Supervision (Toronto Centre) is an independent not-for-profit organization that promotes financial stability and access to financial services globally by providing training that strengthens the capacity of financial sector regulators and supervisors, particularly in emerging markets and low-income countries. We believe that for countries to thrive, their financial systems must be stable and inclusive. By helping to build these economic foundations, our mission supports sustainable growth and job creation, and helps to reduce poverty. Since 1998, we have trained more than 12,000 supervisors and regulators from over 190 countries and territories. Toronto Centre is supported by Global Affairs Canada, the IMF, Swedish Sida, and other valuable international partners such as the World Bank.
